Dear resident,

Working with you to make White City Estate and Batman Close greener

Our partners from Groundwork London have been finding out what changes people want on the estate, to make it greener and improve it for the whole community. We've listened to what you told us, and are now about to start work to make these improvements happen.

What is happening and when?

The first phase of the works will start in mid to late April, and includes new planting and sustainable urban drainage (SuDS) features for Abercrombie, Blaxland, Auckland, Canning, Cornwallis and Champlain Houses. These features help reduce localised flooding, while adding to greenery and local biodiversity.

How will the work affect me?

We always employ considerate contractors, who we urge to avoid excessive noise and disruption. However, there may be times during the day when construction noises can be heard, some footpaths are obstructed, and some car parking spaces are blocked. We apologise in advance for the inconvenience.

We've been working with our partners to secure funding for these works through the Mayor of London's Good Growth Fund. You can view the designs for the whole estate online at www.groundwork.org.uk/nourish

Thank you for your support and co-operation while we make these improvements. If you have any questions or concerns, please email me at Daniel.Brittle@groundwork.org.uk or call 020 3981 9926.

Kind regards,

Colette Prior
Resident involvement and governance manager
