

# CASE STUDY —2 NEW VOLUNTEERS SHARE THEIR EXPERIENCE

**Who:** Laura & Pat

**When:** Friday 22nd April 2019

Pam & Laura are both residents who live close to H2010 complex which faces onto the river. Aire. They had never done a river tidy up before and were not sure what to expect.

When asked afterwards if they would like to share their thoughts with us, both said they felt their time had been worthwhile and they were stunned by how much debris and litter had been collected in such a short space of time!

Both said they would definitely be keen to attend more clean ups in the future if they were available.

---

“ we couldn't believe how much debris & litter there was just after only a few days of quite heavy rain”

---

## Tasks:

- Litter picking and removal of washed up debris following recent heavy rain
- Removal of debris from water
