

CANDIDATE PACK Trustee

Welcome from our Chief Executive Officer...

Groundwork, Changing Places Changing Lives

Groundwork was founded in the North of England at a time of political, social and economic challenge originally as an experiment to help communities cope with change and work together to make their lives and neighbourhoods better. That experience and that spirit of enterprise and innovation have never been more needed.

What drives us is the recognition that in every community – however disadvantaged – there are deep reserves of pride in the local area and people with the passion and ideas to improve their circumstances and surroundings.

Groundwork exists to harness that pride and unlock that passion through services projects and programmes that change people's lives now, but also make our communities more resilient for the future.

Groundwork are an organisation that embraces transformation - through new approaches and different ways of operating. As history tells us we cannot stand still if we want to be at the forefront of community regeneration for the next thirty years. We are now going through a further process of consolidation and merger.

'Building a Better Groundwork' is an exciting new initiative launched nationally to help Trusts develop a consolidation and transformation programme focusing on our sustainability and growth. In the North of England the Trusts operating across the North West (except Greater Manchester), Yorkshire and the North East like to think we are at the forefront of this change and are working ever more closely together to create a northern plan to increase our market share and grow our turnover and profits through improved business development and marketing; embedding common systems and processes; and creating a shared Business Support Service Hub.

Groundwork NE & Cumbria turnover nearly £20m, employ over 450 staff and deliver a wide range of programmes helping communities and individuals find practical solutions to the challenges they face. We are looking to grow this substantially over the next five years.

About Groundwork North East & Cumbria

Groundwork emerged from a 1970's experiment by the Countryside Commission as a new approach to regenerating and managing neglected and derelict land in the urban fringe.

Groundwork emerged from a 1970's experiment by the Countryside Commission as a new approach to regenerating and managing neglected and derelict land in the urban fringe.

Groundwork's first North East Trust was set up in 1985 to meet the needs of communities suffering as a result of the pit closures in East Durham. Over the next twenty years other Trusts were established in West Durham, South Tyneside, Middlesbrough and then Northumberland. In 2009 following a merger Groundwork North East was created bringing together the delivery of over 350 projects per year

that continue to help improve the quality of people's lives, their prospects and potential, and the places where they live, work and play.

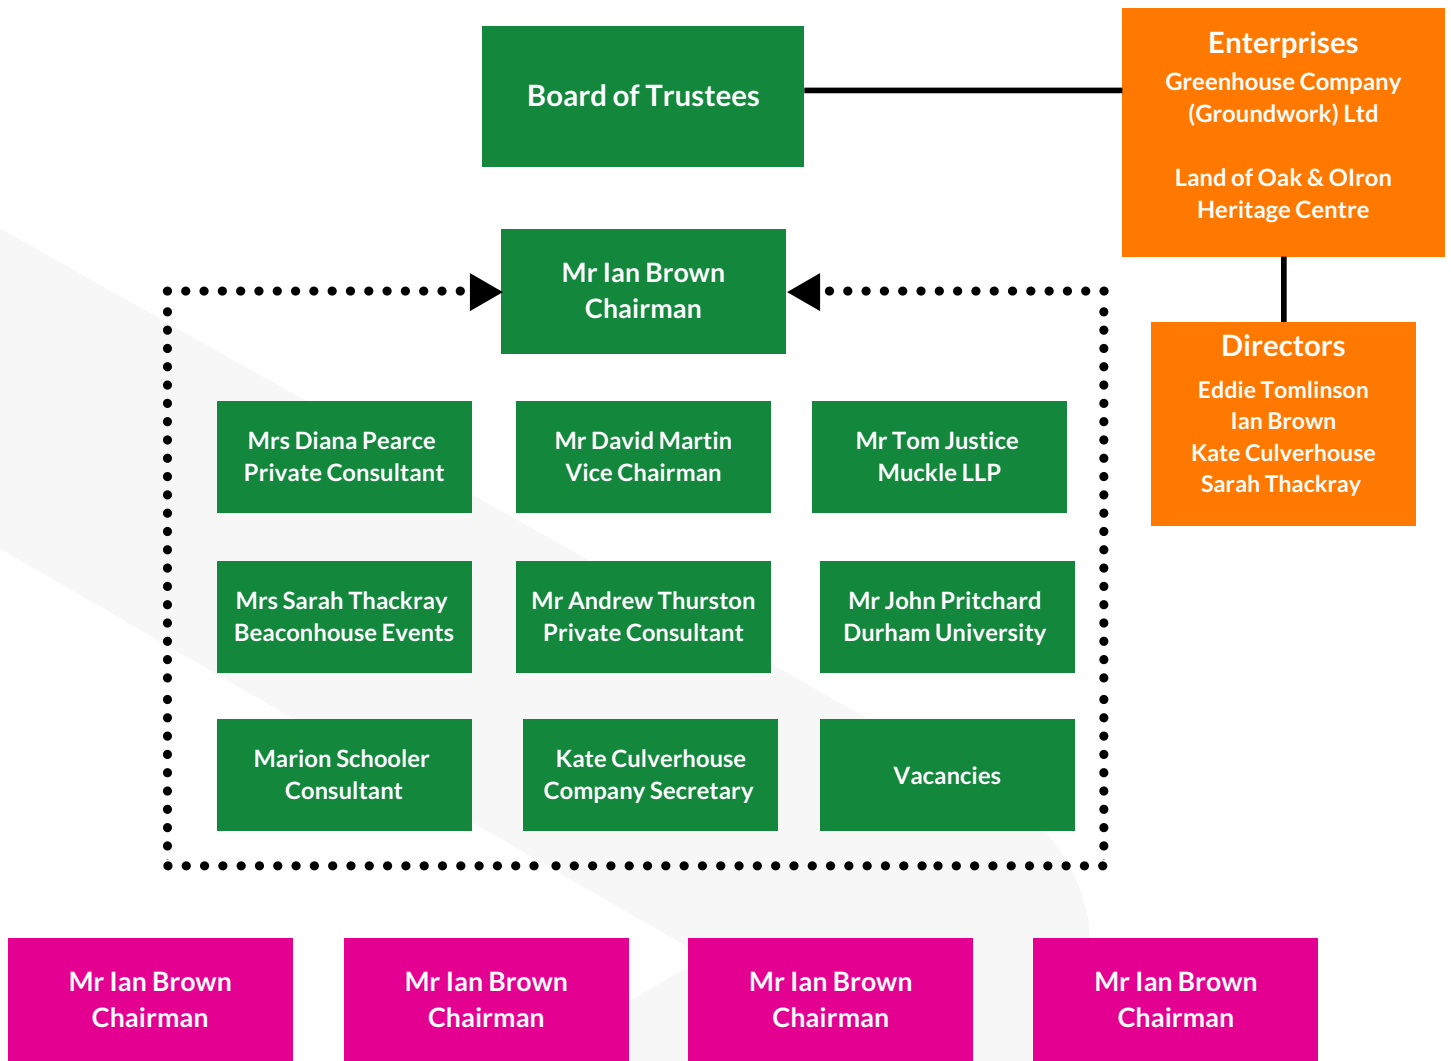

In October 2010 Cumbria officially became part our operational area making us Groundwork NE & Cumbria.

In 2015 we celebrate the 30th year that Groundwork has been inspiring change and supporting communities in the North East & Cumbria.

Our Vision

Our Mission

Mobilising practical action on poverty and the environment

We're passionate about creating a future where every neighbourhood is vibrant and green, every community is strong and able to shape its own destiny and no-one is held back by their background or circumstances.

We help people gain confidence and skills, get into training and work, protect and improve green spaces, lead more active lives and overcome significant challenges such as poverty isolation, low skills and poor health.

Why Our Work Is Needed

The UK is one of the richest nations in the world yet many people in many communities face significant hardship.

>> Reductions in public spending mean there is a risk of greater social inequality and greater geographic disparity, as services people rely on are cut.

>> The neighbourhood services that enhance our quality of life – from youth clubs to parks – are feeling the brunt of spending reductions.

>> As our economy and welfare system change, some people in some parts of the country remain marginalised and vulnerable – unable to connect with economic opportunity.

>> Environmental issues – from flooding to energy price rises – are impacting disproportionately on those who have least protection.

Addressing these challenges will require new ideas and approaches to engaging communities and businesses as well as new forms of public service delivery.

Our Values

Passionate

Creative

Inclusive

Honest
