Help us change places and change lives

Thank you for your interest in applying for a position at Groundwork UK. This is a challenging time for society, but a hugely rewarding time for our organisation. Groundwork's origins lie in the economic recession of the 1970s and our organisation was established as a radical experiment in bringing together public and private resources to support communities to tackle social and environmental challenges.

Over the last four decades we've learned what works to help community organisations become more resilient, to help young people face the future with confidence and to help those who are vulnerable or isolated improve their prospects and networks.

This learning has enabled us to adapt our services and programmes to support communities through the Covid-19 crisis – providing emergency grants to local organisations, helping young people stay connected and finding innovative ways to encourage people to enjoy the natural world.

The experimental approach and entrepreneurial spirit that characterised our early years needs to be at the forefront as we apply ourselves to the challenges ahead. Our aim is to support a recovery that is both green and fair, that puts communities in control of the decisions that affect them and that helps to create a society that promotes healthier and more sustainable lifestyles.

Groundwork UK sits at the heart of a wider community – managing grants, programmes, campaigns and networks that improve the lives of tens of thousands of people each year.

We're a small team with a busy and diverse workload, which means there is huge scope to collaborate, learn and grow. We offer excellent working conditions and benefits and are committed to helping all of our employees develop their careers.

I hope you'll want to join us as we set out on the next exciting phase of our organisational journey.

ABOUT GROUNDWORK

Groundwork is a charity working locally and nationally to transform lives in the UK's most disadvantaged communities.

We help people to carry out thousands of diverse projects each year. Projects that tackle climate change and help people out of fuel poverty. Projects that bring out the best in young people by helping them to improve their local area. Projects that build stronger communities by improving green space or creating jobs.

Last year Groundwork accessed £96 million of funding to support our mission and distributed £29 million in grants to help local groups improve their neighbourhoods.

This contributed to the following outputs and outcomes.

- ✓ More than **9,100** community organisations supported
- ✓ Learners of all ages supported to achieve nearly **6,000** qualifications
- ✓ **50,000** days of social action unlocked
- ✓ **25,750** people helped to achieve new goals in education, training or employment
- ✓ **7.4 million m²** of land improved and nearly **59,000** trees planted
- ✓ **5.9 million kg** of CO₂ and **1.4 million kg** of waste prevented

You can read more about the impact our work has [here](#).

Our strategy for 2020 – 2023 sets out our ambition to build our visibility, our reputation and our resource base so that we can be a significant, radical, national force for driving change in attitudes, behaviours, places and prospects in the local communities that need it most.

Our strategy document has been provided with this information pack.
