Join in, feel good

For the thousands of groups across the UK who are passionate about protecting their local environment, for those who wish to create new green spaces to reflect their community's unique needs – TCV's Community Network was developed for you.

Whether you're experts or just thinking about getting involved in environmental activities, we can give you a helping hand to turn your vision into reality. From developing a new food growing plot, to creating an outdoor classroom or designing a haven for wildlife, **we are here to support you.**

Thanks to the players of People's Postcode Lottery, TCV's Community Network membership is free of charge. This support will allow more communities across the country to benefit from members' work like yours, creating and improving local green spaces.

Membership of TCV's Community Network is open to all groups who want a better local environment, whether your group is newly formed or well established.

“We are so proud to be members of TCV. The information on the activities of other groups, national initiatives and advice that is there for us is invaluable. It is so reassuring to see that all the groups in TCV are moving forward in the same direction. We can't believe that we are getting membership for free!”

John Bullen
Chair, Over Hulton
Community Group

Membership benefits

Are you a community group, school or local organisation?
Join TCV's Community Network free of charge.

Annual membership gives you access to:

- **Discounted bespoke public liability and personal accident insurance**, which is essential for groups carrying out practical tasks.
- A range of **specially negotiated discounts** from TCV's suppliers of tools, trees, seeds, and equipment.
- **Funding support** through TCV's Chestnut Fund and updates on the latest funds available from the sector.
- **Support and guidance**, covering a range of topics from Health and Safety to planting a wildflower meadow.
- Discounted access to our **online conservation handbooks** – the definitive guides to managing the countryside and green spaces.
- Exclusive use of the **TCV Community Network logo** to show affiliation with the network.
- Optional **free listing** of your contact details and web address on The Conservation Volunteers' website.

All this information is available through an exclusive website created to provide TCV's Community Network Members with the support you need in one easy-to-access place.
