

H IS FOR HEDGEHOG

FREE FAMILY 'ACTION FOR NATURE' WORKSHOPS

Can you snuffle and shuffle through the leaves and roll up like a hedgehog? Discover how hedgehogs build a Winter shelter – known as a hibernaculum- by making one yourself! Then create your own hedgehog to take home using natural materials.

Take action at home using the help guide provided at the workshop to make your neighbourhood hedgehog-friendly. We will also hand out instructions for making a recycled draught excluder, so you can keep snug and hibernate like a hedgehog this Winter!

23/10, 11-12:30 pm -Langthorne Park

23/10, 11-12:30 pm -Ridgeway Park
