

## Survey terms & conditions

Groundwork Greater Manchester are working with Resilient Cities Network – Greater Manchester, supporting communities as part of the Resilience for Communities Project, engaging with communities around extreme weather events .

The survey and information you provide will serve as an evidence base, helping us understand the needs of your community along with the vulnerabilities and extent of impact extreme weather events have.

To better understand your replies and put them in context, we need to understand a few elements of your person better, such as the age and gender category you belong to. We will start with these questions, and then move onto further questions to understand the impact of extreme weather events you have experienced.

Your answers will be treated with the utmost privacy and confidentiality. Your identity will remain anonymous at all times. Your responses will not be linked to your name, and your name will never be used in connection with any of the information you provide. The information you supply will **ONLY** be used by Groundwork Greater Manchester AND the Resilient Cities Network regarding the Resilience for Communities project in conjunction with our data protection policies.

Please see our privacy statement here
