Planning Family-Friendly Activities for Your Green Space

Join us to plan and 'mind map' family-friendly activities for green spaces together!

We will cover:

- Preparing family orientated activities that engage all ages being involved in your Greener Together site, with the ambition that it builds stewardship to look after and look out for these valuable green gems.
- How to facilitate for all family members to get the most out of your activity, to ensure everyone is taking part, learning life skills and knowledge from each other and bonding together.
- Explore the breadth of green activities that can be facilitated at even the smallest green space.
- What to consider when working with families at your green sites.
