

Groundwork London

2020-2025 Impact

Back in 2020, before we knew what the following 2 years of the Covid-19 pandemic would bring, we set ourselves some ambitious targets to make London greener, and support Londoners in their access to nature, jobs and wellbeing.

We couldn't be prouder of our **amazing teams on the ground** as we are thrilled to announce we have **reached and exceeded** all of **our six targets**, including supporting over **1 million Londoners** through our work in green spaces, supported employment programmes, voluntary actions, community work, as well as health and wellbeing.

1,090

open spaces
improved or
looked after

3,792

people progressing
into training or
employment

25,283

young people
more motivated to
learn and achieve

129,246

days of voluntary
action in local
communities

331,330

people helped to
reduce their energy
and water use

1.1 million

Londoners
benefitting from
our work
